NEW UNIFORM

We are so excited to share our custom-made uniform with you all!

We are really excited to have partnered with Squad dancewear to make a uniform that can bring the whole school together and is going to look fabulous in class!

THE IMPORTANCE OF UNIFORM

Wearing the correct uniform to class is very important for many different reasons. It brings unity between all members of the school. It also ensures that the dance teachers can properly see the dancer's body and alignment, making it easier to give corrections, which provides the safest training to the dancers.

We have detailed information for uniform; however, if any child feels that the set uniform does not represent them, we are happy to discuss this and come up with an option for them.

The age given is approximate for each size. If your child is at the top end of the size chart and you would like an element of 'growing room', we suggest you order the size above.

The above measurements are the sizes the lycra garments are designed to fit when stretched.

We recommend measuring your child and sizing up if you're unsure or would like growing room.

Customer Feedback: Ages 0-3 up to Age 8-9 tend to come up small. Please note you may wish to purchase a larger size.
